FILL

Our Body Wash Base is certified by both the Soil Association, and Ecocert. It contains a natural liquid soap base derived from organic oils, blended with gentle surfactant & skin enhancing ingredients.

Body Wash Base is fully formulated, pre-preserved and ready to go. Ideal for manufacturers large or small, hand fill or automate to produce a line of liquid products.

- > Allows production of a certified body wash, if the converter/filler has organic certification.
- > Contains a true liquid soap derived from Certified Organic Sunflower and Coconut oils.
- > Blended with gentle surfactants, to provide a creamy lather.
- > Fully formulated base that only requires the addition of fragrance or essential oils.
- > Readily thickened, if required, by the addition of common salt (Sodium Chloride).
- > Sulfate free formulation

MADE IN ENGLAND

EXAMPLE RECIPE

Here we show you how to convert one of our liquid bases into a natural handwash using our **Body Wash Base**.

Follow the steps below to create a range of tailored Body Wash products using our innovative Liquid Bases.

- > **Body Wash Base** - Add the desired weight
- > Add between 0.3/0.5% fragrance / essential oil
- > Mix together for 10-15 minutes until essential oils are dispersed
- > Whilst stirring, add 20% salt solution - Mix until homogeneous and desired viscosity is achieved
- > Fill into your finished packaging

Open - Simply open the packaging and measure your desired amount of Body Wash Base.

Prepare - Make up a 20% salt solution in warm deionised or softened water. Do not add until the final stage.

Add - Pre-warm the Body Wash Base to 30 - 35°C and add your Essential Oils / Fragrances of your choice. We recommend adding no more 0.5% to the to maintain clarity.

Mix - Gradually mix the materials together in a suitable container until smooth and homogeneous, approx. 10 - 15 minutes.

Thicken - Now add your 20% salt solution and mix until desired viscosity is reached.

Fill - Once finished, fill into your packaging, bottles, or tubs. (always run full stability testing prior to sale / distribution)

PACKAGING

Liquids are available in a range of packaging, just pick a size that suits your needs:

- > 5KG Jerry Can
- > 25KG Bucket
- > 200KG DRUM
- > 1,000KG IBC / TOTE
