None

This document is generated by computer and consequently is not signed.

This information is generated by calculation and is given to the best of our knowledge based upon the formulation and information on its components received from our ingredient supplier and is therefore subject to change. Threshold limit for reporting purposes is 1ppm. All concentrations shown are %w/w.

The IFRA Standards regarding use restrictions are based on safety assessments by the Panel of Experts of the RESEARCH INSTITUTE FOR FRAGRANCE MATERIALS (RIFM) and are enforced by the IFRA Scientific Committee. Evaluation of individual Fragrance ingredients is made according to the safety standards contained in the relevant section of the IFRA Code of Practice.

This certificate is based on statistical analytical data (detection limit $\geq 0.001\%$) and is not carried out on each batch. The stated use levels relate to this specific material alone and may not be valid when used in combination with other restricted materials. It is the ultimate responsibility of the manufacturer to ensure the safety of the final product (containing this fragrance) by further testing if need be.

The information contained herein is true and accurate to the best of our knowledge and belief, but does not claim to be all inclusive. The information given is for guidance only and is not a warranty as to the performance or suitability of the product. It is the responsibility of the user to take all necessary measures to comply with all legal requirements and regulations. Bay House Aromatics®, Bay House Ingredients® & Soapmakers Store are Divisions of Aroma Trading Ltd, Reg No. 02698381 and as such shall not be held liable for any damage resulting from handling or from contact with the product, since the conditions of use are out of our control.
